Instructions:

- People will be provided with materials as basic as possible and they will have to create models related to the Aerospace Domain.
- The event is set to be for two hours, with a 2 member team.
- Participants are allowed to search the entire campus and find loot boxes/ Materials.
- In the loot box case, participants will be able to take only certain defined things.
- Fevicol, scissors and cutter are excluded from the material list.
- The materials are noted down as selected by every team. The participants will have to be present at their allocated positions along with the entire team.
- The team can select any one member to be sent to find any new material as required by the team, but the rest of the team should be present only at their allocated position.
- The entire team should be present together again at their positions, any team failing to do so will be disqualified.
- Required accessories like fevicol, scissors etc will be provided.
- Total time allotted is 2 hrs.
- With the available materials the team should make models related to the aerospace domain.
